🪪 PROFESSIONAL SUMMARY

Dynamic Java Backend Developer with proficiency in Java frameworks like Spring and Hibernate, adept at building robust server-side applications. Possesses strong problem-solving and communication skills and is capable of leveraging Generative AI and rapidly learning new tech stacks to enhance backend solutions.

🧠 TECHNICAL SKILLS

`Java` `Spring Boot` `DSA`

`MySQL` `Git` `Hibernate`

`JDBC` `HTML5` `CSS3`

`JavaScript`

🧠 SOFT SKILLS

`Effective Communication`

`Team Work` `Problem-Solving`

`Adaptablity`

🎓 EDUCATION

Java Backend Development (Full Time)
Masai School 🔗
04/2023 – 01/2024 | Bengaluru, India

Bachelors's In Computer Application
Maharshi Dayanand University 🔗
09/2020 – 06/2023 | Rohtak, Haryana, India

Higher Secondry Education - 12th
YN College
04/2018 – 04/2020 | Bihar

💼 PROFESSIONAL EXPERIENCE

Skillovilla 🔗
SDE - 1
02/2024 – 11/2024 | Bengaluru, India

Developed and taught a comprehensive software development curriculum covering Java, Data Structures and Algorithms, and SpringBoot. Designed challenging assignments and test case generators to enhance students' problem-solving skills. Collaborated with faculty to ensure curriculum alignment with industry standards and educational objectives.

📁 PROJECTS

Ecommerce Project 🔗
Backend Project with Spring Boot and JWT Authentication. GitHub 🔗

Tech Stack Used Java | Spring Boot | MySql | Spring Security | JWT

- Developed a comprehensive Ecommerce backend using Java, Spring Boot, and MySQL.
- Implemented RESTful APIs for user registration, authentication, and complete CRUD operations.
- Integrated Spring Security and JWT for enhanced security in user authentication.
- Optimized database queries and server responses for enhanced performance and scalability.
- Created detailed admin and user roles with specific permissions and access levels.
